

GETTING APPROVALS ISN'T COMPLICATED

The key to getting approved regardless if it is a mortgage, car loan, business funding, etc. is based on the three "C's"--credit, cash flow, and collateral.

The Total Credit Rebuild (TCR) Program provides a turn-key solution via a 501(c)(3) non-profit to position participants in becoming capital ready by strengthening credit, cash flow, and collateral.

RESULTS IN 60 DAYS

In just sixty days, you can recognize the benefits of the TCR Program. As additional time passes, your profile will continue to strengthen.

AFFORDABLE

Less than \$100 per month with a one-time processing fee.

What is included in the Total Credit Rebuild Program?

Credit Sweep

- Administered by Certified Credit Paralegals, block applicable negative items from appearing on your credit report leveraging federal laws.
- Not "credit repair"--it is a legal-based model.

Credit Boost

• Assistance with adding new positive, primary trade lines to strengthen your credit profile.

Income Verification

 Assistance in creating verifiable income which is crucial for loan approvals.

Collateral

 Assistance in creating a collateral assignment and improving your Personal Financial Statement.

Who needs a Total Credit Rebuild?

You should consider enrolling in the Total Credit Rebuild Program if any of the following applies to your current situation:

- If you don't earn a high income (as your cash flow impacts your "capacity" to repay loans and a low verifiable income limits your access to capital).
- If you have been denied for financing/loans/ credit.
- If you are only getting approved for small amounts when applying for financing.
- If your Personal Financial Statement doesn't reflect a strong Net Worth.
- If your credit report lacks adequate positive trade lines.
- If you want to position yourself to buy a house, finance a car, or obtain business funding.
